

the radio station klove serves me as a resident of my local community by playing the best Christian music around which is clean and safe for my family and i to listen to. it would have a negative affect on me, my family, and the local community by taking away selection and clean/safe music. it is in the best public interest to leave k-love on the air by not expanding the lpfm to have priority over the current fm translators. this would be very much appreciated, thank you.
